

# ATTENTION

## Seekonk Water Users

### PHASE 2

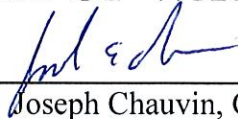

## Outdoor Water Management Program

*Massachusetts General Law, Chapter 21G, authorizes the Department of Environmental Protection (DEP) to regulate the quantity of water withdrawn from surface and ground water systems. Seekonk is a ground water system. Under this law Seekonk is allowed to withdraw a daily average of 1.71 million gallons per day (MGD) equating to 624.15 million gallons per year (MGY). Dependent on weather conditions, Seekonk's annual withdrawal can exceed 500.0 MGY. By imposing the "Annual Water Management Program" Seekonk can abide by the established DEP requirements.*

Effective **May 1<sup>st</sup> to September 30<sup>th</sup>**, the Seekonk Water District has implemented PHASE 2 of their "Water Management Program. **Phase 2 makes it MANDATORY for ALL water users to comply with the odd/even water policy.** Properties with even numbered addresses are **ONLY** allowed to water on even numbered days and properties with odd numbered addresses are **ONLY** allowed to water on odd numbered days between the hours of **5 AM thru 8 AM and 5 PM thru 8 PM**. Because this phase is mandatory, violators will be subject to fines and water shut-off as follows:

- **First Offense**                      **Written warning**
- **Second Offense**                **\$ 50.00 fine**
- **Third Offense**                   **\$100.00 fine**
- **Fourth Offense**                **Termination of water until the matter of continued violation is resolved**

### BOARD OF WATER COMMISSIONERS
